On-Hold Plus 8000 *platinum series*

USB Flash Drive
Digital On-Hold Audio System

The ultimate in simplicity! Our USB flash drive MP3 playback unit comes preloaded with hours of great music and "Thanks for holding" messages, so it's ready to go right out of the box. Just plug in the USB, power it up and connect the provided audio cable into your phone system's music on-hold input port. Update your music and message on-hold content by dragging any .mp3 file onto the included flash drive. Includes our MessageStudio software (for Window's PCs) allowing you to create professional sounding on-hold audio content with voice and music with a few mouse clicks...then, just transfer the file directly to the USB Flash Drive.

USB FLASH DRIVE

Features

- **128MB USB Flash Drive** - Load new MP3 audio from any Mac or PC.
- **PC connection...strictly optional** - Unit uses PC only to update content stored on USB Flash Drive.
- **Rugged Anodized Aluminum Enclosure** - Tough wall-mountable enclosure built to withstand the toughest installations.
- **Built-in Monitor Speaker** - Listen to audio program from integrated speaker.
- **Trigger switch jack** – Allows connection of momentary switch to restart the audio from the beginning. Perfect for audio kiosk applications.
- **Auto start after power loss** - Retains stored preferences such as: music selection, repeat mode and volume settings. If power to the unit is lost, unit immediately returns to continuous playback with all settings without human intervention.
- **Ready to go right out of the box** - Pre-Loaded with nearly 3 hours of fully-licensed music & messages.
- **MessageStudio software** - Allows users to create new on-hold audio content with voice and music on their Windows PC with a few mouse clicks. Then, just transfer the file directly to the USB Flash Drive.
- **Free personalization** - A free professionally-voiced, personalized on-hold production is provided to the customer automatically when the product is registered.
