

Default Security Users

This section lists the default Rights Groups and Service Users for IP Office 4.0+ systems.

WARNING: Change Passwords

New IP Office systems and systems upgraded from pre-IP Office 3.2 use default security settings. These settings must be changed to make the system secure. At minimum you must change the default passwords of the Security Administrator and the default Service Users. Failure to do so will render the IP Office system unsecure.

Unique Security Control Unit				
Enabled	✓			
Name	security			
Password	securitypwd			
Default Service Users				
Name	Administrator	Manager	Operator	EnhTcpaService
Password	Administrator	Manager	Operator	EnhTcpaPwd1
