Using BizTouch 2 Controls

Slide the speaker control to adjust the speaker volume. Use the handset volume switch to adjust the handset volume. Use the ringer switch to adjust the ring volume.

For a list of recommended headsets, visit www.bizfon.com or call 299.

Muting Outgoing Audio

Press **MUTE** to turn off the microphone for the speaker-phone or handset so that the caller on the other end of the line cannot hear anything you say. Press it again to turn the microphone back on.

Internal and External Rings

When an internal caller is calling, you hear a single ring.

When an outside caller is calling, you hear two short rings.

Using the Speakerphone

Making a hands-free call:

- Press **SPEAKER** and wait for dial tone.
- Adjust volume if needed.
- Press **SPEAKER** again to hang up the phone.
- If you are using a headset, pressing **SPEAKER** activates the headset.

Receiving a call:

- Press **SPEAKER** instead of picking up the handset when the phone rings.
- Adjust volume if needed.
- Press **SPEAKER** again to hang up the phone.

Switching between Speaker and Handset:

You can switch between the speaker or headset and the handset while the phone is dialing a number, or anytime during a conversation.

- Speaker or headset to handset: Pick up the handset.
- Handset to speaker: Press **SPEAKER** then hang up the handset.

NOTE: Be sure to press **SPEAKER** before hanging up the handset or you will disconnect the call.

Troubleshooting Speakerphone Operation

Problem: You cannot hear sound from the speaker.

Cause and Solution: If you are using the speakerphone in a noisy environment, the microphone might pick up these sounds and prevent the speakerphone from receiving sound. Use your speakerphone in a quiet area.

Problem: Callers tell you that your audio does not sound clear.

Cause and Solution: Recessed office areas, such as next to cabinets, can cause audio distortion. Locate your phone away from these areas.

Problem: Speakerphone does not stay on when you press **SPEAKER**.

Cause and Solution: The BizTouch 2 requires an AC adapter for the speakerphone. Be sure that the AC adapter is connected properly.
