

## MEMORY CARDS

CT.TS005.507.EN – 03

## MEMORY CARDS

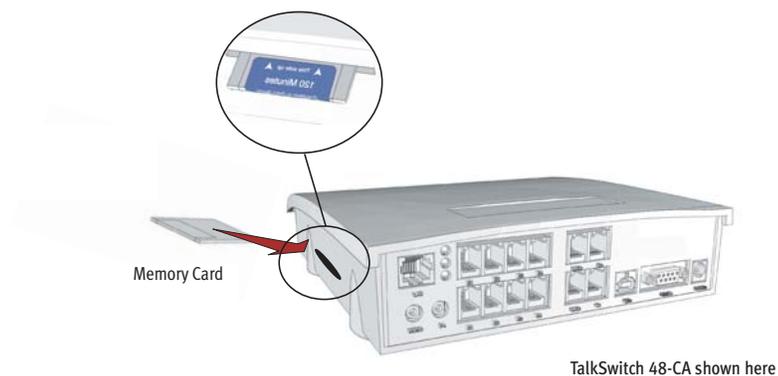

TalkSwitch Memory Cards are specifically formatted for use with TalkSwitch. They allow you to add additional voicemail message capacity to your TalkSwitch unit, and are available for TalkSwitch 24-CA, 48-NLS, 48-CA, and 48-CVA. Voicemail memory is used to store voice messages left in voice mailboxes, but it is also used to store auto attendant greetings and announcements. Memory can be increased in increments of 1 hour, 2 hours, 4.5 hours, and 9 hours. More memory corresponds to more record message time.

## INSTALLING CARD

**Insert the Memory card into the MEMORY SLOT as shown in the diagram.** There is no need to turn the unit off, nor do you need to remove any of the telephone devices.

TalkSwitch 24-CA, 48-CA, and 48-CVA – the memory slot is on the side of the unit.

 Make sure the gold contact is face down and inserted into the MEMORY SLOT first. The “This side up” tab should be showing.

TalkSwitch 48-NLS – the memory slot is on the back of the unit.

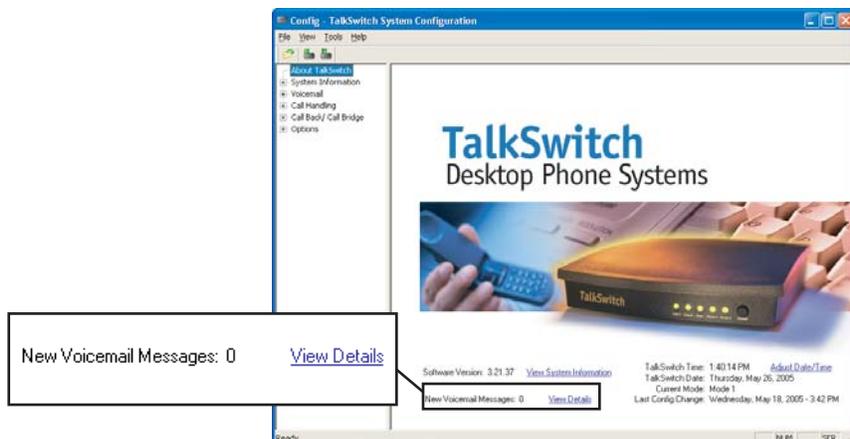

TalkSwitch 48-NLS shown here

### ACTIVATING MEMORY

**After installing the additional memory, TalkSwitch will locate and initialize it within about 20 seconds.**

To verify that the memory has been installed correctly you may do the following:

1. Open the TalkSwitch Configuration Software.
2. On the main screen, click on **View Details** to open the Mailbox Data window. The Summaries section of the Mailbox Data window displays the total voicemail time for the system.

#### About TalkSwitch

TalkSwitch® is dedicated to providing small and multi-location businesses with innovative telecommunications solutions. Since 1990, TalkSwitch has delivered rich features, high functionality and unbeatable value. Ideal for businesses with up to 32 telephone users per office, TalkSwitch systems provide users with options to connect to both the traditional telephone network (PSTN) and Voice over IP (VoIP) networks. TalkSwitch is headquartered in Ottawa, Canada. For more information call (888) 332-9322 or visit our website at [www.talkswitch.com](http://www.talkswitch.com)
